**Accurate Divider &  
Forming technology!**

**1800 - 2000  
Bagels Per Hour**

## **INTRODUCING** **UNISOURCE HEAVY DUTY** *Bagel-O-Matic™* **DIVIDERS AND FORMERS**

**All Stainless steel Divider & Former  
UNI-SDF**

The Unisource Automatic Bagel Divider/Former is designed for accurate scaling and forming of bagels. It's precision scaling of dough assures that all bagels are the same weight.

The Dough is constantly fed through heavy duty rollers to the designed thickness and cut to the size by dual cutting blades. The special Electronic Clutch automatically adjusts the feed and flux of the dough assuring a constant even feeding.

This machine can scale accurately 1-1/2 oz. - 6 oz. mini, standard or bull bagels with its double blades for production of 1800 - 2000 bagels per hour! Heavy duty construction and quality components such as cutting blades, gears, sprockets and belts assure many years of high volume production with maintenance free sealed bearings.

Nationwide Service 24/7.

CE Approved.
